Bishkek Courier Vision

Thousands of people in Bishkek.

- <https://github.com/aki0923/bishkekcourier-vision.git>

20%

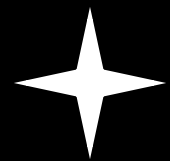

of courier working hours
lost finding the right
entrance.

Who

- Yandex Pro couriers
- Glovo couriers
- Independent couriers

Problem

- Codes unknown.
- Entrances unmarked
- Couriers guess. Time is money.

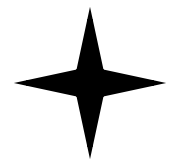

The Solution

Couriers
share
entrance
photos, codes
& tips —
verified by AI.

- 1 **Share**
Photo · code · tip
- 2 **Validate**
AI checks it
- 3 **Deliver**
Team benefits

PM

Groq Vision

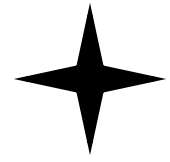

Every photo verified before it reaches other couriers.

- Confidence Threshold
 $\geq 75\%$ ✓ Accept
- Real entrance
Accepted. +10 points awarded
- Meme or junk
Rejected. No human needed
- Seen before
Cached. Costs cut by 60%.

Why it matters

- One wrong code spreads to every courier who follows.

Verification is what makes the data trustworthy.

Working MVP

Works Today

- Flutter app on Android
- Entrance photos, codes, tips
- Gemini Vision validation
- Points & multiplier system
- Docker + CI/CD deployed

NEXT DAYS

- Map 50 hardest complexes
- Closed beta — real couriers
- Server stress test
- Push notifications
- Yandex Pro & Glovo integration
